

François Bélanger

Partner

François Bélanger is a partner and a member of the firm's Litigation group. He also leads the Quebec office litigation team. He is a litigator in the areas of commercial, real estate, and construction law.

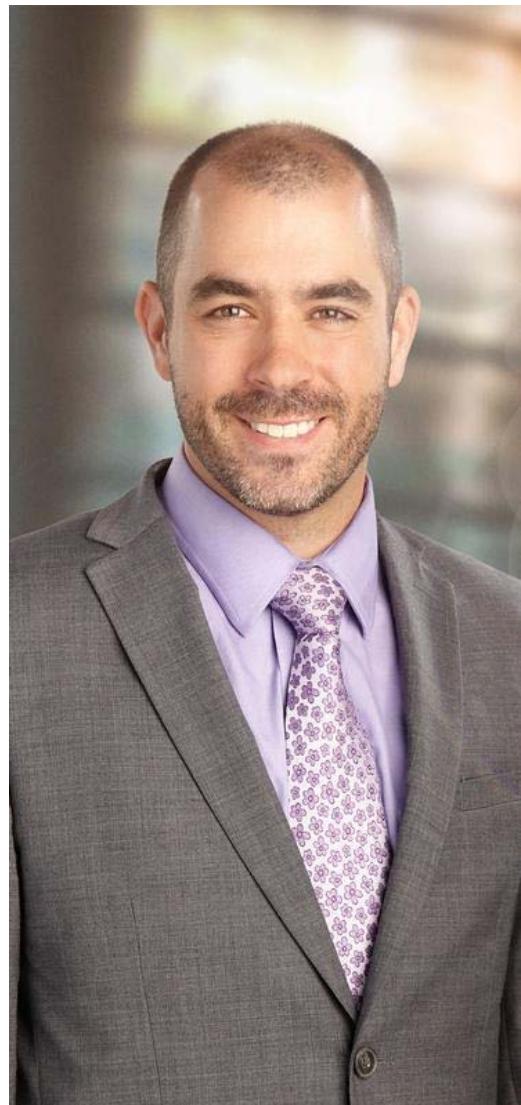

Mr. Bélanger's practice focuses mainly on litigation and settling disputes. He specializes in construction and represents professionals, contractors and insurers. He regularly handles major cases with many complex technical challenges. Mr. Bélanger is particularly skilled at working with technical standards. He has developed considerable expertise in reviewing plans and estimates. He handles cases strategically and efficiently.

Mr. Bélanger also reviews and drafts commercial contracts and shareholders' agreements. His clients also benefit from his fluency with financial data analysis. He is an expert in real estate law, particularly commercial leases.

Mr. Bélanger is proactive, which enables him to provide personalized service with a clear understanding of his clients' needs.

Representative mandates

- Represented Gestion F.D. Desharnais Inc. in a dispute concerning the urgent installation of a main pipe as part of major construction work
- Represented Pro-Métal Plus Inc. in a dispute concerning the adequacy of estimates for calls for tenders to construct a retaining structure for public use and for which the critical timelines relative to the construction site also had to be determined
- Analysis of (no) compliance with contractual obligations: scope of work, coordination, compliance of work, recovery work, management of extras, termination of contract, errors or omissions, etc.
- Liability for No-compliance or Loss of Work
- Liability for Failure to Manage Projects
- Represents shareholders in complex disputes with other shareholders, which involve forensic accounting evidence and analysis of financial statements
- Drafting of commercial agreements and construction contracts

- Conflict resolution: negotiation, development and implementation of negotiation and conflict resolution strategies
