

Julie Gauvreau

Partner | Lawyer - Patent Agent - Trade-mark Agent

Julie Gauvreau is a partner, lawyer, patent agent and trade-mark agent in Lavery's intellectual property group. She holds a degree in microbiology from *Université de Montréal* and began her practice in 1998. She is a lawyer, a registered patent agent in Canada and in the United States, and a trade-mark agent.

Julie Gauvreau has developed a successful patent practice with a full range of clients in the biotechnology and pharmaceutical fields. Her specialty resides in helping clients develop effective intellectual property protection strategies tailored to meet clear business objectives including the development and launch of new products. Her clients include universities, hospitals, government laboratories and research institutes, as well as small and medium sized businesses, and large pharmaceutical companies. She works closely with intellectual property practitioners in many other countries to obtain protection of Canadian inventions abroad, and represents many foreign clients seeking patent protection in Canada. She has given numerous seminars and courses on intellectual property matters.
