November 10, 2025

Authors

France Camille De Mers

Partner, Lawyer

Sylvain Pierrard

Partner, Lawyer Partner, and Trademark Agent

Ghiles Helli

Lawyer

We invite you to our upcoming webinar: “Understanding the Legal Framework for User-Generated Content (UGC).” Learn directly from Sylvain Pierrard and Ghiles Helli as they reveal their best practices and winning strategies. Moderator France Camille De Mers will facilitate this panel discussion, ensuring a rich and dynamic dialogue.

Together, we’ll explore how to legally frame your UGC strategy. We’ll tackle the complex issues of intellectual property and the critical challenges of personal data protection, illustrating every concept with concrete, real-world examples.

The right legal framework for user-generated content (UGC) is your essential defence in the current digital landscape, protecting your business and users while building transparency and trust online. This framework covers aspects such as the use of content protected by intellectual property rights and compliance with applicable privacy laws. Understanding the legal implications of using Terms of Use is crucial to effectively navigating this evolving environment.

When: November 26th, 2025, From 10 A.M. to 11 P.M.

In order to receive an attestation of attendance for continuing education purposes, please use your professional email address for registration and be sure to attend the entire webinar.
